Protect Your Family With The One Pool Cover That Passed The "Bubbles The Elephant" Test!

You'll probably never need a pool cover strong enough to support the weight of "Bubbles," the African elephant seen here. But imagine how safe you'll feel owning the only pool cover that's proven it can: the one and only LOOP-LOC Safety Swimming Pool Cover!

Built From The Highest Quality Materials!

Built super-strong and securely anchored into the deck, LOOP-LOC puts an unbreakable "lock" on your pool to protect your family.

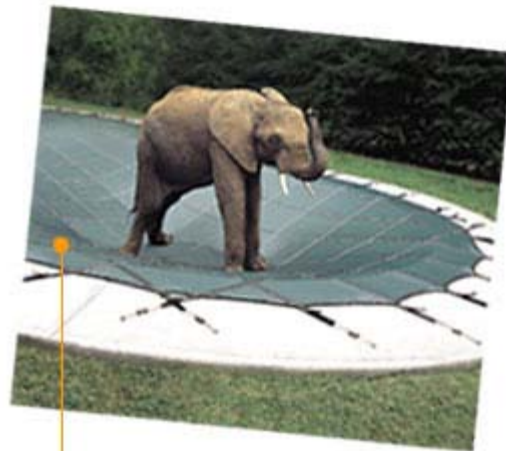

Safety So Unique, It's Patented.

Only LOOP-LOC comes with the patented SAFEDGE® and GAPGUARD® Child Safety Intrusion Barrier. It closes the dangerous gaps created where raised obstructions meet the cover's edge, so there's no way children or pets can slip through!

Only A LOOP-LOC Performs Like A LOOP-LOC!

Here just a few of the reasons why:

- The polyester bonded thread used in LOOP-LOC covers costs almost 10 times more than that used by some of our competitors.
- Double perimeter webbing and double-thick straps give our covers an incredibly high break strength.
- We use extremely high-strength, non-corrosive 302 grade stainless steel springs for superior weight-bearing capacity.
- We sew the webbing to the cover using contrasting white thread, instead of black, to ensure that not a single stitch is missed.
- We use 87% black yarn in our fabric for superior UV stability.
- Chafe strips are manufactured with exclusively virgin material - not "regrind," which tends to stain decking.
- Non-corrosive aluminum tips are double-notched for stability.
- The large X-tacking on LOOP-LOC straps is sewn manually for precise placement and maximum strength.

LOOP-LOC IS SO DURABLE, IT'S NOW BACKED BY A 12-YEAR WARRANTY! SUBMIT OUR ONLINE WARRANTY CARD [HERE](#).
